"Blackt mineral" off his capt befrombeet; too, is gone; many's head is broken off, Henney's head to toon.

Miscellaneous

The nopulation of London in sheltered by 500,000 dwellings There are 600 professional by don who do not work at all.

Mrs. Garfield's property foots up abou \$450,000 and her income is about \$21,000 In giving his daughter \$750,000, the Duke

ment direction to acclimatize the Japanese tea There are 156,000,000 women and girls is

China, nearly all of whom are uneducated and The Italian Government is encouraging the rowth of American vines in that country, a sing proof against phyfloxera.

There are three Philadelphia maidens wh are beiresses each to \$6,000,000. It is scarce necessary is add that they have histand as In a lox closse in England the exection killed five bornes and the fox finally fell dead from the same cause in front of the Bicester

countly taken a prize of 40 ducats and a laps lazuri cup at a Vicuna cattle show for the

Mies Bayard, daughter of the U.S. Secretary, an accomplished borsewaman, and is said to be at her best in the society that goes in for

mild athletic sports. When a Japanese girl wishes to show a del icate attention to her lover she uses the sharp-ened point of one of her finger nails as a pea-

The pleasantest fashionable parties given a yet in London this season have been those of Mme. Waddington (see King) of New York, wife of the French Ambassador.

The States of Maryland, Alabana, Arkan sas, Delaware, Guorgia, Maine, New Hamp-shire, New Jersey, Oregon and West Virginia have never had Lieutenant-Governors. George Riddle of Carroll county, Md., la der the same roof with him no less tha

twenty-two numerried daughters, and Riddle riddle is how to get rid of his Riddles. Queen Victoria always sleeps on a woode bedstead of a particular shape, and whenever she visits a strange place a bedstead and bed-ding are sent thither from Windsor for her use The United States is the only civilize ountry in the world, declares a former superintendent of schools in Boston, where teachers do not hold their positions by permanent ten-

A strange fish has been discovered on the Merocco coast. It is a foot and a half long of deep black color, and has an engraous mouth with electric membranes resembling a peli-

There are more than 3,000 women employs in the Austrian railway offices. They are paid from \$15 to \$30 a month. Nearly all of them are widows of men who have died in rail

The Vatican is making preparations to hold next spring a general council to consider a profor the internal administration of Catholic Church. The Pope has formulated

ise to give a concert next summer in Notwich, England, in sid of the Children's Infrastry there, of which she is the founder. She has not sung in public since 1863. Among the lost dances of to-day are man

of the delights of the ball-roun of a hundred years ago. "Boston's Delight," "Pea Straw," "Stony Point," "Haymaking," "Innocent Maid" and "I'll Be Married in My Old Clothes."

Rev. Mr. Taluage says that roller skating, eclipses croquet, foot ball, lawn tennis and sliding by montight on a pond. It has an advantage over the gymnasium in that it is more exhibitating. He also adds in the same connection, that flirtation is damnation.

The present reigning dynasty of Japan dates lack 2,546 years, and is considered the oldest in the world. The records of Japan are accurately preserved for that time. All the macurately preserved for that time. All the mahad their beginning since then.

An opportunity of studying a case of laprosy has been afforded Dr. Guttmain, who assures the Berlin Medical Society that there can be no doubt the living bacilli found in the sys tom of leprous patients are really the caus-

It is interesting to know that a boat can make its way island from Havre to the Medtherranean, and the feat is now being accom-plished by a torpean hoat, which is comin-up the Seine to Paris and from here will pro-ceed to Marseilles by various rivers and canal-Galvanized-iron water tanks must not be employed on board of French mon-or-war Dr. Venable, in a paper road before the American Chemical Society, has shown that water passed through 200 yards of galvanized tree pipe took up 4.29 grains of zinc carbonate pe

Potable water, Dr. Perry Frankland asserts is all the better if it contains a little mineral matter, as that is only objectionable when present in excessive quantity, but organic matter, of whatever origin, or any trace of newage contamination, ought to be sufficient to exclude a water from domestic use.

London telephone subscribers pay a rental of \$100 per annum for each phone, 10 per cent of which goes to the Government. The company has 5,000 miles of everhead wire the city, put up at a cost of \$52 50 per mil Discussing the subject of underground lin-the counsel for the company says it woul-cost \$10,000,000 to make the change. A smart Colonel of an Irish militia regimes was lately found fault with by the Inspecting

was lately found fault with by the Inspecting-General for the indifferent shooting of his re-giment. The Colorel replied, "Sir, I must explain that I stand before you in two post-tions, one as Colonel of the regiment and the other as an Irisi "landlord!" As far as I am concerned. I consider the shooting good en-ough!"

It is estimated that there are 200,000,000 Mehammedans in the world, of whom 6,000,000 are in Southeastern Europe and 20,000,000 in Asiatic Turkey, 7,500,000 in Persia, 25,000,000 in Arabia and Central Asia, and 60,000,000, in Hindostan. Considerably more than half of them are in Asia, and the remain der in Africa, except the 6,000,000 in Euro pean Turkey

Flower weddings are becoming popular in London. At these weddings the bride-maids wear gowns which represent spring flowers. For instance, a set of dresses that have just been made represent daffodils. Yellow quilted satin, lemon-colored surah and marabout feather trimmings are used in these dresses It has been suggested, and the hint is timely that flower weddings ought to be introduced

Ellery of the Melbourne University will or ganize an expedition to observe the total solu eclipse of September 8th, in New Zenland, I sible that one or Iwo American observ ers will also go there. Professor Hasting observations of the colipse of May, 1883, have

excited no little interest, and the eclipse of next September furnishes the first opportunity Corn cannot be cultivated above 50 de

grees north latitude on the northeast aboves of Asia, although in the interior it matures as far north as 62 degrees. On the castern shores of America the northern limit of its growth is 50 degrees, and on the western 57 degrees while in the intermediate section it is known to go as far as 65 degrees. In Norway i

The largest gan ever made for the United States Generament has been shipped by the South Beston Iron Company to the ordnance proving station at Sandy Hook. The gan has been in process of construction since last. August. It is thirty-feet in longth, weighs fifty-three tons, and is of twelve-inch califer. It carries an 890-pound shot and uses 150 pounds of powder in one dis-harge. It is intehded for an experimental leng-range rifle gun. VOL. XX....No. 23.

is quick and almost painless in its operation, a said to pull seven teetle in five seconds. A pair of forcess protrude from a nickel tube A part of forcipa protrate from a next time, which is connected with a wire. The forceps are applied to the tooth, the operator touches a spring, a spiral arrangement within the tube winds up in a wink, draws down the forceps like a fligh, and it an instant the tooth is seried from the jaw and east on the floor. On some of our leading railroads that have

ried large wheels under their passenger equi-nent serious trouble has been experience ith the wheels getting loose on the axle. The everage is so great on the small axle when he wheel strikes a beavy blow on the side o a frog that in many cases the axie is spring or the v local started. Some of the roads are fiving up the 42-inch wheels on this account nd others are considering the desirability occurring the size of the axle.

The deaths from diphtheria per 100,000 in-additants stand as follows in the cities named: Amsterdam, 265; Berlin, 245; Madrid, 225; Dresdon, 184; Warsaw, 167; Philadelphia, 163; Chicago, 146; Turin, 127; St. Petersburg, Statigart, 61, Rome, 56; Edinburgh, 56
 Suda-Pesth, 50; The Hagne, 45; Vienna, 44 ondon, 34; Christiana, 43; Copenhagen, 42

A London professor, in a lecture recently sported in the papers of that city, connecrate emlysis, color, gont, rheumstism, kidney dis-se, Mindress and insanity as results that sy all come from strinking water with lead A simple test for discovering the preee of lead in water is is thus described; exists of adding a little tineture of cochine biclic if there be the least trace of lead in th

No English paer or perross can be arrested of delt, need serve on juvies, or be called on the militie, and they do not awear on oatl They can sit in any court in England peers, one carry arms, but not in their ckets, and if they commit treason or felony, hey must be tried by their peers.

Considerable increase in the mortality from cancer in Great Britain during the past thirt years is shown by the forty third annual re-port of the English Registrat-General. In the tem years 1890-60 there were 80,019 death ie disease and the annual increase was 248 During 1870-79 the number of deat rom cancer was 111,301, and the average in-rouse 320. Thus in 1850-59 the increase was about 2,000, in 1860-69 it was 2,100, and i 1870 79 was 3,200
